Summer Clerkship 1/5 - Nursing Care

Summer Clerkship 1/5 - Nursing Care

SUBJECT MATTER CONTENT:

Practical training – During the summer practice after the 1st year, the student becomes acquainted with the organization and specifics of work in a ward. The student has the opportunity to become familiar with basic procedures in the field of nursing care for sick and seriously ill patients (including: feeding, washing, repositioning, bed making) as well as in the field of medical care. The student learns the principles of maintaining nursing documentation related to a patient's admission, stay, discharge, or death, and the management of patient records.

TEACHING OBJECTIVE:

Summer practice in the field of Patient Care primarily allows one to acquire, improve, and consolidate practical skills encompassing the performance of: nursing procedures and patient care activities. Additionally, vocational summer practice enables active and passive participation in basic nursing and medical procedures.
